Dr. Shelly Mondeik, new Mid-State Technical College President

Dr. Sue Budjac retired last year and the board started the process to select the next president. After a long and arduous process Dr. Shelly Mondeik was hired. She has been at the helm for 10 months now and has set an ambitious agenda for the college.

She started by meeting one-on-one with all employees and board members to get direct feedback on what was working and what needs change/improvement. The result is a realistic understanding of the current environment and where the college needs to go to be successful. The basic pillars of opportunity are pictured to the right; Programs, K-12, Workforce, and Continuing Education. College staffing has been changed to specifically address these pillars with greater focus. The programs are now designed based on the five "R"s – Right Program, Right Curriculum, Right Format, Right Location, and Right Times.

Based on the analysis of the area the College will be rolling out new programs in Cyber Security and Hospitality (for Sand Valley and others). In continuing education they have offered courses in knitting, straw bale gardening, Spanish, Quickbooks, and many more enrichment courses. We welcome Shelly to our community and wish her well in her new leadership role!

4-Way Test. Of the things we think, say or do:

1. Is it the truth?
2. Is it fair to all concerned?
3. Will it build good will and better friendships?
4. Will it be beneficial to all concerned?
