Casa Hogar Juan Pablo II

UWEC Students Jared Rogers and Matt Aaseng: “Casa de Hogard Orphanage”

Description: Casa Hogar is a home for youth in Peru with the mission of delivering high quality care in a family environment. There are 64 children and 8 families who live at Casa Hogar ranging in age from 5 years to 17 years. Our care is unique from the traditional orphanage model. Over the years, our organization has provided many children with a safe and caring environment where they gain the confidence to develop skills that empower and enable them for a more promising future. As the central hub for an association of 19 orphanages and local service homes, Casa Hogar aims to impact the community beyond just our children. Through a global network of volunteers, support and love from around the world, our goal is to engage, integrate and uplift the local community while allowing our children not only to survive, but to thrive. More information on our model, can be found in our Program section.

The children come from in or around Lima Peru. At the facility they raise their own sheep and chickens for food. The children learn social skills such as how to look someone in the eye when talking to them. They played with the children and learned about accepting people for who they are. While there they complete projects such as painting walls. Very humbly they learned how to be better missionaries and having a mission heart for others. The area is very poor with inadequate sanitation, low quality housing, where most street vendors are homeless. Illegal activity is the norm. Once kids leave the orphanage they face a very difficult life.

You can help by following them on Facebook or their website and sponsor a child.
