Shawn is a Mid-State graduate and has been the conservation officer for the last six years. He shared the two favorite projects that both can save customers money.

Focus On Energy

WW&LC is one of 106 Wisconsin utilities that partners with Focus on Energy. One of their programs provides free, your choice of energy saving products (see right).

Time of Day

To help manage peak power usage WW&LC offers a "Time of Day" program that replaces a universal power cost of \$0.097 per kwh with \$0.147 on-peak and \$0.055 off peak charges. This theoretically could cut your electric bill in half though 5-20% reduction is typical depending on how and if usage is changed to preferentially use off-peak power. Savings up to 40% have been documented.

Shawn invited club members to sign up for evaluation and several took him up on the offer. Signup form attached.

Residential TOD Rate

Wisconsin Rapids Water Works & Lighting Commission (WWLC) standard residential rate is RG-1. The standard charge of \$0.0979/per kilowatt-hour.

Kilowatt-hours (kWh) are the measure of how much energy is used by a resident over time.

When residential customers select a RG-1 TOD instead of paying \$0.0979 per kWh under the standard RG-1 rate, customers pay \$0.1472/kWh during on-peak times and \$0.0549/kWh during off-peak times. Residential customers can select from one of the following TOD on-peak/off-peak options.

- 7AM-7PM Monday-Friday is on-peak, all other times (nights and weekends are off-peak)
- 8AM-8PM Monday-Friday is on-peak, all other times (nights and weekends are off-peak)
- 9AM-9PM Monday-Friday is on-peak, all other times (nights and weekends are off-peak)

In addition to the above off-peak periods, the following holiday or day designated to be celebrated as such will be billed all as off-peak for the full day: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

RG-1 TOD rates make the most sense for residents that have electric hot water heaters, air conditioners, or other large electric loads that residents are willing to mostly operate during off-peak times.

Residential customers who are able and willing to adjust their lifestyle by washing laundry, running the dishwasher, etc., during off peak are also willing to benefit from a TOD rate.

Once a customer begins service on one of the optional RG-1 TOD rates, the customer shall remain on the rate for a minimum of one year. Any customer choosing to be served on a RG-1 TOD rate waives all rights to billing adjustments arising from a claim that the bill for service would be less on another rate than what the customer had selected.

To sign up for a WWLC RG-1 TOD rate, check one of the optional times (listed above) and complete the information (listed below) and return to the WWLC office.

I have read and I agree to the terms and conditions of the Wisconsin Rapids WWLC RG-1 TOD as stated above. I understand any estimated savings provided to me by WWLC are not guaranteed, and my bill may actually rise as a result of my selecting to go on a RG-1 TOD rate.
